BRIEF INFORMATION

The cost of meals has been greatly reduced in Columbus. Meals can be secured for about 25c within a block of the college. Many students reduce their expenses by working for their board, which requires a few hours each day outside of school hours.

Furnished rooms within a few blocks of the new college building are reasonable in price. The majority of students have room-mates and pay about \$2.50 a week. Many of the ladies room at the Y. W. C. A. where they can get board and room for \$6.50 a week. Good light-housekeeping rooms can be secured. We have a good list of rooms and shall be glad to help you in getting comfortably located.

Tuition for six weeks is \$30, twelve weeks' \$54, twenty-four weeks \$96 and forty-eight weeks \$180. It is cheaper to pay in advance for a long term.

Students may enter at any time, as our school is in session the year round. Public school teachers who wish to attend our six weeks' summer term will find it an advantage to enter as soon as their school is out in May or June.

Columbus is a very beautiful city and is considered by most people an inexpensive place to live. We have all kinds of attractions in the way of theaters, parks, etc. Many of the pulpits in the various churches are filled by men with national reputations as speakers. We have the penitentiary, Ohio State University and other state institutions and colleges which students visit. All of these make Columbus a fine place in which to spend your vacation. Our college faces one of the most beautiful parks in the city.

Salaries received by students when leaving school depend altogether upon the student and the position. Last year the lowest salary received was \$1200 and the highest \$2700. A course in the Zanerian will help you to increase your salary. There are excellent opportunities in penmanship. The large cities pay very attractive salaries but they require teachers who are thoroughly trained and who can secure results.

Our Employment Department helps pupils free in securing positions. We are always glad to help former students in securing other or better positions. Many pupils have been relocated many times. In the past we have been very successful in locating pupils. Our aim is to locate every pupil in the position he is best qualified to fill. Superintendents and school officials from all parts of the country come to us for teachers and supervisors.

The demand for persons qualified to teach or supervise writing is increasing from year to year. Persons of average intelligence having a liking for penmanship can succeed. For the past few years it has been difficult to fill all vacancies. We expect the demand for teachers this coming year to be large.

The general education of a teacher or supervisor of writing should be the same as a regular teacher. The better educated, the better the chances are for advancement, and for securing the highest pay. If you are short on education, you may succeed in securing a position and improving your general education in the evenings and during vacations as many of the best teachers of today have done.

Contrary to previous announcement there will be no Zaner Method Summer School in Chicago.

Business Writing

Students in the Zaner Method Summer Schools are instructed how to execute and teach a style of business writing which is free, speedy and full of dash and grace—the style best suited for business, high and public schools. Every one can master this practical and serviceable style of handwriting.

Mr. C. C. Lister, of the Maxwell Training School for Teachers, New York City, has been engaged to teach a few weeks during the summer school.

Six hours normal credit will be allowed for the above work by The State Department of Education of Ohio.

Mr. Lupfer will as usual give instruction and criticism in all branches of penmanship, lettering and engrossing.

The Zanerian Reunion will be a big success. Unusual interest is being shown in it by Zanerians and persons interested in penmanship everywhere. Plan to attend and meet this enthusiastic gathering of penmen, supervisors and teachers of penmanship.

I desire to express my appreciation for the help and the inspiration received at the 1921 Zanerian Summer School.

The class drills and lectures have been very valuable and I cannot speak too highly of the high ideals and fellowship of the school and of the words of praise and criticism given.

Marguerite Strohminger

Miss Strohminger spent ten weeks in the Zanerian during the summer of 1921 and will attend the 1922 session.

To Whom It May Concern:

It has been my good fortune to attend the Zanerian at two different times.

The instructions received at my first visit have enabled me to secure and hold attractive positions and the time and money invested in the course have brought me very large returns. Especially valuable to me was the instruction in business writing, although I gave some attention to other branches of penmanship.

On my last visit to the school in 1921 I found the instructions up to the minute. The Zanerian is a school of today.

Mr. and Mrs. Griffith of the Englewood Business College, Chicago, Ill., spent a very pleasant and profitable summer in the Zanerian.

J. Griffith

This is a specimen of my plain business writing such as I acquired by study and practice at the Zanerian College in seven weeks.

Apr. 22, 1921.

Edith M. Incababian
Wilmington, Delaware.

A course in the Zanerian proved profitable to Miss Incababian. She intends to return to the 1922 summer school.
